ABOUT COMPANY

AnaConEx Consulting is a modern global technology services provider helping businesses grow through improved operations and automation. The company focuses on ensuring clients have full ownership of the software they invest in, with a strong emphasis on Free and Libre software.

Since 2020, AnaConEx has been a partner of Odoo ERP, offering international implementation services. Odoo is an open-source platform with minimal licensing fees for its enterprise edition. AnaConEx has a skilled team of technology professionals, led by experienced solution architects and project managers, capable of handling end-to-end ERP implementations that align with clients' strategic goals.

OUR SERVICES

Business Automation Consulting

Our experts recommend modern software solutions that enforce standard operating procedures (SOPs) and business rules, helping organizations improve efficiency, productivity, and control across all operations.

Cloud Solution

Cloud solutions enable businesses to boost productivity and efficiency with flexible and advanced infrastructure. This includes services like Infrastructure as a Service (IaaS), Platform as a Service (PaaS), and Software as a Service (SaaS).

Software Licensing & Implementation

We help businesses implement software and licenses for complex systems, ensuring smarter purchasing decisions based on real user experiences.

Software Application Development

From brainstorming a new software idea to solving a business challenge, we support you at every stage of development. This includes business analysis, prototyping, development, testing, and deployment of custom software solutions.

SKILLS & EXPERTISE

AnaConEx has a skilled team of technology experts specializing in:

Digital Transformation

Software Design and Development

Web Application Development

Hosting Platform Configuration

We have successfully delivered these solutions to clients in UAE, KSA, Qatar, Oman and the USA, developing top-rated solutions in the following areas:
